DriPak® KX

RIGID POCKET FILTER

Eurovent certification is not applicible to DriPak KX Coarse filters.

Features and Benefits

- ISO 16890: Coarse and ePM10
- Stiff welded pockets
- Pocket spacers for optimized airflow
- Fully incinerable
- High dust holding capacity
- Low pressure drop behaviour
- Non-breaking, synthetic fibres
- Silicone free
- Low weight and leak-proof design

Applications

DriPak KX filters are designed for the use in applications where a high dust holding capacity is crucial, either as prefilters or final filters.
DriPak KX filters are ideal for automotive paint booths, healthcare facilities, commercial buildings, and a variety of industrial applications.

Configurations

Filter media	Synthetic
Pocket design	Z-shaped spacers, tapered, ultrasonic welded
Gasket	Optional
Header standard material	Plastic 25 mm
Max. operating temperature	70 °C
Recom. final pressure drop	Subject to optimization of lifecycle costs, max 450 Pa
Recom. airflow range	75% - 125% (of nominal airflow)
Moisture resistance	100% relative humidity
Standard dimensions (Width x Height)	592 x 592 mm with 8 pockets, 287 x 592 mm with 4 pockets
